

# Pacific Graphics 2009

Oct 7 – 9, 2009 • Jeju, Korea

<http://cg.postech.ac.kr/pg2009>

**Pacific Graphics** is an annual international conference on computer graphics and applications. As a highly successful series, Pacific Graphics provides a premium forum for researchers, developers, practitioners in the Pacific Rim and around the world to present and discuss new problems, solutions, and technologies in computer graphics and related areas.

**Pacific Graphics 2009** will be held in Jeju, Korea, during October 7-9, 2009. Although Pacific Graphics has been held in Korea five times, all of them have been in Seoul, the capital city of Korea. For the first time in the series, Pacific Graphics 2009 will be in Jeju, which is a beautiful island and one of the most attractive tourist destinations in Korea. Please come and join us to have a successful conference and enjoy fantastic nature of Jeju at its best season.

**Paper submission:** Original unpublished papers are invited in all areas of computer graphics and its applications. The topics include (but are not limited to) modeling, rendering, animation, and imaging, as well as visualization, human-computer interaction, and graphics systems and applications. Any interesting new ideas related to computer graphics and applications are welcome.

**Paper publication:** *The conference proceedings of Pacific Graphics 2009 will be published as an issue of the Eurographics journal, Computer Graphics Forum (CGF), in print and online.* Regular (full) papers will be presented in oral sessions and appear in the journal issue. A few submissions with strong potentials but not accepted as regular papers will be recommended for a second review cycle after major revisions. Poster papers will be accepted and included in the conference poster proceedings, which is separate from the issue of CGF.
